

July 28 1948

Mr Sam Lacy
792 Park Road
Washington DC

Dear Sam:

I am writing first of all to send you this wire to let you see I was not fibbing. Hope not hearing from me did not inconvenience you too much.

Next I wanted to tell you about my schedule and program for the immediate future, and enclose a schedule of home games. We are playing a lot of ball at home but our fans seem to like to see all the out of town teams. I wish they were interested only in league ball but this is not the case. They really turn out to see strange teams, especially southern names.

You will note by the schedule, our next appearance home after being away three weeks will be with Kansas City and Satchell pitching. If we get the right buildup, we should have a good crowd. That is if I can beat that jinx that seems to follow me with Satchell. You remember last year, it rained the first time he was to appear, and VF day came on his second appearance here, and only three buses got to the park. In spite of this we had 30000 three thousand out. I decided to try once more so he is due here August 6th. Help me out if you can.

Enclosing a check, drop me a card or phone or something let me know you receive it. Hope to see you soon.

Sincerely
